ALLU RAPTOR TECHNICAL INFORMATION.

The versatile, robust and practical design of the ALLU Raptor series make them the essential tool for severe dismantling material applications, where productivity and reliability are vital.

ALLU has developed new series of high-performance vibratory machines. Denominated as "ALLU Raptor Series", they are designed to be used in any application, where the highest production rates are required, as well as continuous work shifts, where the reliability and comfort of working with the excavator are of vital importance. The vibratory technology and the mechanics, provide a greater impact at a lower frequency. This means higher production, reduced wear, and lower operator fatigue. Backed by a comprehensive two-year warranty, the ALLU Raptor's performance is guaranteed to excite you.
